

11.0 GPM 300 PSI GAS SOFT WASH SYSTEM WITH HONDA GX200 ENGINE AND COMET DIAPHRAGM PUMP

MODEL: SW1165HEC2

COMMERCIAL**SERIES**

FEATURES

- The soft wash system uses low-pressure but high volume of water mixed with specific detergents for its cleaning power. It is a gentler cleaning method that is ideal for delicate surfaces such as roofs and wood structures.
- Commercial Honda GX200 engine with an excellent weight-to-power ratio. Designed to be used all day, every day.
- Gear drive system lowers the 3,500 RPM the engine produces down to the 550 RPM that the pump needs to operate
- High-volume, commercial grade Comet diaphragm pump has chemical resistant wet parts that are compatible with aggressive soft wash chemicals
- Single-piece manifold for reduced leak points and quicker service
- Molded inserts that cannot come loose
- Bolt-on regulator prevents leaks when adjusting the pressure knob
- Aluminum head plates prevent flexing of the heads
- Metal oil cup for impact resistance
- Recoil and electric start for added convenience
